

Oracle CPQ Cloud Managed Service

Do you want a Configure, Price and Quote system that delivers exceptional business results while keeping control of your ongoing costs?

Walpole Partnership offers a full managed service that delivers an Oracle CPQ Cloud system, fully configured to your needs, with **no upfront implementation fee**.

We include full support, ongoing development and maintenance, and expert advice. This ensures your system is well adopted, continues to deliver business results and stays up to date.

When you're planning to get your software-as-a-service, make sure you have the ongoing support that you need. The experts at Walpole Partnership give you CPQ-as-a-Service.

From £60 (€70 / US\$85) per user per month with no upfront implementation fee.

Includes all development using standard configuration (e.g. the 'point and click' admin interface). Excludes Oracle CPQ Cloud system license fees.

*Advanced customisation and scripting using BML can be included by mutual agreement and may require a further charge.

**'Out-of-the-box' integration to CRM included. Integration to other systems may require a further charge depending on complexity.

Minimum of 100 users. Minimum 3 year contract. All prices exclude VAT.

Delivered in conjunction with the Oracle CX Managed Service specialists BPI OnDemand
